### Tama Marathon 4.2 km - The next generation of net

Tama Marathon - combines the well known and trusted Tama Zebra Net benefits of Edge to Edge performance with a very high strength net, all within a workable roll weight.

- New easy-view Zebra roll pattern, making roll loading and identifying bale un-roll direction even easier.
- **40% more running length on the roll, still with a workable roll weight.** Marathon keeps running when others need to change.

**LOWERS YOUR COST PER BALE**  
DO YOUR OWN CALCULATION TO SEE...

$\frac{\text{Price per roll}}{\text{no. of bales per roll}} = \text{cost per bale}$

# Tama Marathon™ 4.2 km

## SAVES YOU:

### TIME

Marathon 4200 m gives you 1200m MORE net than standard 3000m white net, enough extra net to make up to this many MORE bales per roll. A significant saving in time and effort, by reducing time wasting roll changes.

### MONEY

A longer roll means more bales per roll, reducing down time to re-load and re-stock rolls, as well as other savings in fetching and carrying. This all adds up to a significant saving in actual cost per bale, increasing your profitability.

### WASTE

Much more net on a roll means fewer rolls required for the same bale count, giving a significant saving in waste packaging from your season's baling. In fact, a 40% saving in waste packaging.

Bale+ combines a special mix of advanced raw material with a unique manufacturing technology, meaning only Tama can provide the unique combination of:

- **ROLL LENGTH** - for maximum baler utilisation (4200 m) 40% longer than standard 3000m net rolls
- **NET STRENGTH** - minimum strength >270kgf for maximum performance in the toughest crop
- **ROLL WEIGHT** - the ONLY technology able to achieve both length and strength within a workable roll weight.
- **ROLL CONSISTENCY** - 2 rolls of Marathon can provide enough net to bale all day long, in every round baler and all crops.

Uniquely, Marathon gives **40% MORE** length in every roll, with a workable roll weight.
